PENSIONS IRELAND

PRSI contribution statement

A private records and questions review checklist

Review date: _____ Statement coverage: _____

1. Check which period the statement covers

Record the issue date and the last year shown before treating an apparent gap as an error. Ask the Department of Social Protection to explain the reporting period when it is unclear.

Statement issue date: _____ Last year shown: _____

2. Make a year-by-year question list

Compare the record privately with your work history. Note periods you want explained, including employment, self-employment, caring or work abroad. Do not decide entitlement from one missing entry.

Year / period to check / evidence held privately / question:

_____

_____

3. Request clarification through the official route

Use current Department of Social Protection or MyWelfare guidance. Ask what evidence is required and how to provide it securely. Record the response date and any follow-up needed.

Contact date: _____ Response / follow-up: _____

4. Keep the pension decision separate

The statement is a record, not a pension award. A calculator is an illustration. Record unresolved questions for the official scheme area or an appropriately qualified advisor before making a personal decision.
